CARVANA BRINGS INSPECTION AND RECONDITIONING CENTER CAPABILITIES TO ADESA CHICAGO

May 06, 2026

Integrating operations creates approximately 100 new jobs, expands selection, and drives faster delivery for Chicagoland customers

CHICAGO--(BUSINESS WIRE)-- Carvana (NYSE: CVNA), the industry pioneer for buying and selling cars online, today announced plans to bring Inspection and Reconditioning Center (IRC) capabilities to its existing ADESA Chicago wholesale auction site. The integration creates additional reconditioning capacity and a new inventory pool in Carvana's national network that supports greater selection for retail customers nationwide, faster delivery speeds for Chicago car buyers, and a more robust offering for local wholesale customers.

Carvana Brings Inspection and Reconditioning Center Capabilities to ADESA Chicago

"Bringing IRC capabilities to ADESA Chicago strengthens the speed and efficiency of our national network while deepening our presence in the Midwest," said Brian Boyd, Senior Vice President of Inventory at Carvana. "We're proud to continue growing our local team while improving selection and delivery times for Chicago retail customers and expanding the capabilities we offer our wholesale partners across the region."

Carvana has already begun hiring local team members and expects the integration to create about 100 new good-paying, skilled, and entry-level jobs in inspection, reconditioning, and vehicle fulfillment over time. These roles require no college degree and come with comprehensive benefits.

"Carvana's decision to expand operations in Hoffman Estates is a strong example of the kind of investment that creates jobs and strengthens our local economy," said Senator Darby Hills. "We are proud to see businesses continuing to grow in Illinois and invest in hardworking families across the region."

"Carvana's expansion in Hoffman Estates is creating exactly the kind of hands-on, good-paying jobs our workforce is looking for. These are real opportunities for Illinois families, and I'm glad to see this kind of commitment to our communities," said Mayor Bill McLeod.

The announcement builds on Carvana's growing presence in the Chicago market, which also includes Car Vending Machines in Schaumburg and Oak Brook, as well as a multi-year front-of-kit sponsorship with Chicago

Fire FC. Carvana is committed to its fast-growing Chicago customer base and continues to roll out new enhancements to the local customer experience, like same-day delivery, which launched last year.

Located in Hoffman Estates, Illinois, ADESA Chicago has served wholesale customers since 2016. Now the facility will also house the teams and tools that drive Carvana retail reconditioning and fulfillment. The approximately 75-acre site includes nearly 6,000 parking spaces and offers significant infrastructure to support IRC operations alongside ongoing wholesale auction activities.

The integration will establish a new pool of local retail inventory, giving Chicagoland customers access to a broader selection of vehicles with delivery options as soon as the same day. Wholesale buyers will benefit from enhanced on-site inspection and reconditioning capabilities, as well as ongoing access to ADESA's in-lane and digital auction services.

Carvana's proprietary software platform, CARLI, will power the site's transition to an IRC-enabled facility, supporting operational efficiency and consistency across its national reconditioning network.

Forward Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be preceded by, followed by or include the words "aim," "anticipate," "believe," "estimate," "expect," "forecast," "intend," "likely," "outlook," "plan," "potential," "project," "projection," "seek," "can," "could," "may," "should," "would," "will," similar expressions, and the negatives thereof. Forward-looking statements reflect Carvana's current expectations and projections, and include all statements that are not historical facts, including expectations regarding the expected integration of IRC capabilities at ADESA Syracuse and the anticipated benefits therefrom, our strategy, forecasted results, potential infrastructure capacity utilization, efficiency gains, the expected capabilities and performance of Carvana's CARLI platform, future staffing needs and hiring plans, and growth opportunities. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. Among these factors are risks related to: Carvana's ability to successfully integrate IRC capabilities at the ADESA Syracuse site on anticipated timelines and budgets and to realize the expected benefits thereof; Carvana's ability to utilize its available infrastructure capacity; the ability to attract, hire, train, and retain qualified personnel; the larger automotive ecosystem, including consumer demand, global supply chain challenges, vehicle pricing, and other macroeconomic issues (including with respect to the impact of tariffs on our business); our ability to effectively manage our rapid growth and maintain customer service quality, reputational integrity, and brand recognition; seasonal and other fluctuations in our operating results; our relationship with DriveTime and its affiliates; our highly competitive industry; our use of artificial intelligence; and the other risks identified under the "Risk Factors" section in our Annual Report on Form 10-K for the fiscal year ended December 31, 2025. There is no assurance that any forward-looking statements will materialize. You are cautioned not to place undue reliance on forward-looking statements, which reflect expectations only as of this date. Carvana does not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments, or otherwise.
