Carvana Expands Same-Day Delivery to Salt Lake City

"The entire process was quick and easy, and I was surprised to learn my car could be delivered the same day I placed my order," shared Carvana customer, Francisco C. "Having access to so many vehicles online, and being able to shop without running from dealership to dealership, made it a great experience."

Carvana's intuitive e-commerce platform allows customers to browse and compare tens of thousands of high-quality vehicles, secure financing, trade in their current car, and complete their purchase entirely online. And now, for a selection of eligible vehicles, local buyers have the opportunity to receive their vehicle as soon as the same day.

This new level of speed is made possible through Carvana's growing first-party logistics network and regional Inspection and Reconditioning Centers (IRCs). As the company continues to build and optimize its network, more customers in Salt Lake City can take advantage of same-day delivery on a growing selection of vehicles.

"We're excited to bring even more speed and convenience to customers in the dynamic and fast-growing Salt Lake City market," said Jacqueline Hearn, Carvana's Senior Director of Market Operations and Expansion. "With same-day delivery, we are raising the bar for what customers can expect when buying a car online – speed, simplicity, and the control to do it all from home."

Carvana first introduced same-day delivery in Arizona and has rapidly expanded the offering to select markets now across 20 states. The company plans to continue its expansion in the months ahead as it leverages its growing network of IRCs and fulfillment operations.
