“I live 30 minutes from my parents, so trying to schedule time to visit multiple dealerships with them just wasn’t working out—especially since I needed a car right away,” shared Carvana customer Lydia L. “Carvana made everything so convenient! My mom had been letting me borrow her RAV4, but I really wanted something of my own. I placed my order and was surprised with how quickly it was delivered!”

Carvana’s seamless ecommerce platform allows customers to browse through one of the largest selections of high-quality pre-owned vehicles, purchase the vehicle that fits their lifestyle from the comfort of home, and now, in select cases, have it delivered to their doorstep in less than 24 hours. This offering is made possible with the support of Carvana’s first-party logistics network and regional Inspection and Reconditioning Centers (IRCs). Carvana’s new auction-IRC Megasite in Las Vegas, which brought Carvana inspection and reconditioning capabilities to an existing ADESA

wholesale auction location, now gives local buyers access to vehicles that can be delivered as soon as the same day.

“After serving Las Vegas area car buyers and sellers since 2017, we are excited to enhance our commitment to the region by offering even more speed and convenience with same day delivery,” says Jacqueline Hearn, Carvana's Senior Director of Market Operations and Expansion.

Initially launched in Arizona, Carvana's same-day delivery service is currently available in parts of Alabama, California, Florida, Georgia, Indiana, Kansas, Missouri, Nevada, New Jersey, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Texas and Virginia. Carvana plans to continue extending same-day delivery to more locations across its nationwide footprint.

This rapid expansion is made possible by Carvana's extensive infrastructure, which includes a nationwide network of IRCs, an efficient logistics fleet, and a streamlined digital purchasing and underwriting process that has significantly simplified and accelerated the car buying and selling experience.
